

Bringing to Light Your Word of the Year

Visioning Exercise

Tips for participants in visioning

- Remain open, receptive, unafraid and listen
- A perfect time to practice non-judgment of yourself and if relevant, others
- Avoid moving to 'how' to do something that appears in the vision
- The vision may appear as color, feeling tone, words, images, or nothing. Everything is valid
- If you receive ideas or images that don't make sense, just note them. You can ask your Higher Self later, "What does this mean?"

Visioning Questions

We are in a new year! What is my Highest Vision for 2025? What do I want to create? What do I want to experience?

What must I become to empower the vision?

What must be released?

What must be embraced?

Is there any other information that is needed at this moment?
